
Instructions for Preparation of Papers

1. Language and style

The manuscript must be in English. It should be typed on good-quality paper, 210 mm × 297 mm (A4) or 8.5 in. × 11 in. (Letter), with margins of at least 30 mm, using a 12 point font with **double spacing throughout**. The manuscript should be typed on only **one side** of each sheet. Authors are requested to provide **three copies** of the manuscript, one original and two copies of the manuscript.

2. Presentation

The manuscript should begin with **title**, authors and addresses, abstract and keywords, text, acknowledgments, references, list of tables, and figure captions. An additional single space must be inserted between the sections. Tables and Figures should be attached to the end of the manuscript. Pages should be **numbered** consecutively.

3. References

References should be numbered consecutively in the text, thus: "According to a recent study [1]..." and collected at the references section in the following styles.

– *For journals:*

1. Y.-C. Chung, C.K. Kim, and B.J. Wuensch, *J. Appl. Phys.* 87[6] (2000) 2747-2752.

– *For proceedings:*

2. Y.-C. Chung, in *Proceedings of the 3rd International Ceramic Processing Workshop, April 2000*, edited by K.H. Auh (Hanyang University Press, 2000) p. 21.

– *For books:*

3. J. Doe, in "Instructions for Preparation of Papers" (Hanyang University Press, 2000) p. 1.

4. Illustrations

All illustrations, of whatever type, should be numbered in a single sequence and referred to in the text and caption as Fig. 1, Fig. 2, etc. The authors name and the figure number should be clearly shown on the front or back of each illustration. Original art-work should be sent; photocopies or any other form of copy will generally be unsuitable for reproduction in the journal. Handwritten annotations are not acceptable. Photographs should be positive glossy prints, unmarked and not creased, and of high contrast. **Internal scale bars** should be included in photographs. Symbols, arrows, or letters used in photographs should contrast with the background.

5. Units and Abbreviations

SI units must be used. If unconventional units are employed, appropriate conversion factors should be given. All abbreviations should be spelled out in full on first appearance, e.g., Scanning Electron Microscope (SEM).
